Easter Island to Tahiti: Tales of the Pacific

Explore lost civilizations amid idyllic, seldom-seen isles while sailing from the remote and enigmatic Easter Island, one of the most isolated landfalls of Polynesia, to Tahiti through the “low islands” of the Tuamotu Archipelago and the historically significant Pitcairn Islands. See the legendary moai statues up close, walk the length of untouched tropical beaches, meet the descendants of HMS *Bounty* mutineers and snorkel through an atoll pass.

Day by day

■ DAYS 1-4

Santiago, Chile / Easter Island / Embark Ship

Arrive in Santiago, Chile, and transfer to the Mandarin Oriental Santiago (or similar) located in central Santiago. Join your fellow travelers this evening for a welcome reception.

Early the next morning, board a flight to Easter Island where you will check into the Nayara Hangaroa (or similar) for two nights. Over the next two days, explore volcanic calderas, jagged lava fields, and sweeping grasslands to discover the colossal moai statues—the astonishing legacy of a long-lost culture. Join archaeologists to examine these statues and discuss their meaning and creation. Visit burial sites, quarries, and intricately carved ceremonial altars. On Day 4, embark *National Geographic Resolution*. Dinner is served on Day 1; breakfast, lunch and dinner are served on Days 2-4.

Meals included: breakfast, lunch, dinner

◇ DAYS 5-6

At Sea

As you set sail and journey west from Easter Island, head up to the bridge to watch for wildlife and observe expert navigation at work as the skilled captain and officers sail these historic waters. There is also time to enjoy a massage in the wellness center, work out in the gym and browse through the library. Each day the naturalists offer talks that add depth to your experience.

Meals included: breakfast, lunch, dinner

◇ DAYS 7-9

Pitcairn Islands, British Overseas

Territory

Begin your exploration at the famed Pitcairn Island. Many of the mutineers of the legendary HMS *Bounty* made their home here in the late 18th century, and about 50 of their descendants still live here today. Meet the residents and hear a few words of the unusual Pitkern dialect—a combination of English “sailor speak” and Polynesian phrases. Visit the gravesite of the last surviving *Bounty* mutineer, John Adams, and see the *Bounty*’s anchor, which was salvaged in 1957. Continue to the UNESCO World Heritage site of Henderson Island, an uplifted atoll that is uninhabited and virtually untouched by humans. Discover the island’s four endemic bird species, rich flora and fauna and fascinating geology. At Ducie Atoll, spend time looking for frigatebirds and boobies or snorkel among spectacular reefs.

Meals included: breakfast, lunch, dinner

◇ DAYS 10-11

At Sea / Mangareva

Spend a day at sea scanning the horizon with naturalists or relaxing on deck with a good book. Then arrive at Mangareva, the largest of the Gambier Islands, with its interesting history and beautiful lagoon. Venture underwater to snorkel, meet islanders to learn about their culture and the missionaries who made their home here or go on a hike with naturalists.

Meals included: breakfast, lunch, dinner

◇ DAYS 12-16

At Sea / Tuamotu Archipelago

A day at sea brings you to the furthest reaches of the Tuamotu Archipelago, where the captain and expedition leader will determine the next spot for

exploration. In true expedition mode, you'll visit some of the Tuamotus' most remote islands, taking the opportunity to explore them by land and by sea. Navigate reefs and islets as you make your way west and explore one of French Polynesia's many uninhabited atolls, such as Tahanea. Continue to Fakarava, one of the largest atolls in French Polynesia and part of a UNESCO Biosphere Reserve. Snorkel the protected reefs or ride the current into the lagoon on a world-famous drift snorkel.

Meals included: lunch, dinner, breakfast

◇ DAY 17

Makatea

An uplifted coral atoll, the island of Makatea is one of the most unique landforms in the Pacific. A *makatea* is a raised coral atoll that is tilted due to plate tectonics. This specific island of Makatea gives its name to all other uplifted coral atolls worldwide. Spend the day exploring the island's limestone caves and grottos with our expedition team and local guides, or search for endemic fruit doves and myriad seabirds.

Meals included: breakfast, lunch, dinner

■ DAY 18

Papeete, Tahiti, French Polynesia / Disembark Ship

Disembark in Papeete, Tahiti and transfer to the airport for flights home.

Meals included: breakfast

Westbound

Santiago, Chile → Papeete, Tahiti, French Polynesia

National Geographic Resolution

Guests 138	Cabins 76
----------------------	---------------------

The sister ship to *National Geographic Endurance*, she explores polar & temperate regions

Our second new polar build, *National Geographic Resolution*, is named to honor the second voyage of the legendary Captain James Cook.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. *Resolution's* most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside— with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
