Exploring Greenland's Northeast National Park

Explore Northeast Greenland National Park, the world's most expansive Arctic preserve, where epic fjords and pristine ice shape a landscape of rare beauty. Spanning the remote northeast corner of the planet's largest island, this vast wilderness is home to iconic Arctic wildlife—polar bears, whales, musk oxen and immense seabird colonies. Ice permitting, venture into Scoresbysund, the largest fjord system on Earth, and visit Greenland's most isolated community. In autumn, as darkness returns, turn your eyes to the sky for the chance to witness the incomparable northern lights.

Highlights

- ★ Explore the largest national park in the world—Northeast Greenland National Park—known for its remote location, vast scale and stunning geology and wildlife
- ★ Sail into Scoresbysund (ice permitting), the world’s largest and longest fjord system and home to remote Inuit communities
- ★ Observe some of the most elusive Arctic wildlife in the pristine ecosystem of the park, including polar bears, musk oxen, beluga whales and more
- ★ Learn how to capture northern lights displays, conditions permitting, with our National Geographic Photography Expert by your side

Day by day

DAY 1

Reykjavík, Iceland / Embark Ship

Arrive in Reykjavík, the world's northernmost capital, which lies just below the Arctic Circle. Transfer from the airport to the city and spend the day exploring at your own pace. Check in with the hospitality desk this afternoon before embarking the ship.

Meals included: dinner

DAY 2

Westfjords of Iceland

Sailing along the Westfjords region of Iceland, take advantage of expedition activities such as hiking to a remote waterfall, explore the remote fjords by kayak or take a Zodiac cruise alongside stunning scenery and wildlife. As the ship navigates northwards towards Greenland, hone your photography skills from the bow alongside your National Geographic Photographer.

***Based on sailing conditions across the Denmark Strait, the Expedition Team might adjust this day to depart early for Greenland.*

Meals included: breakfast, lunch, dinner

DAY 3

Crossing the Denmark Strait

Sail west across the Denmark Strait, where the cold East Greenland current carries icebergs south. Scan the water for marine life and enjoy life on board. Take a yoga class, unwind with a massage in the wellness center and curl up next to the fireplace in the library. Visit the Bridge and learn about navigation. Relax in one of the twin infinity hot tubs or spend some time in the only igloo at sea. Learn about the area from your onboard

historians, naturalists and photographers and enjoy exceptional dining options. As the days grow shorter in August, this is also a great time to keep watch for the northern lights as they start to reappear on clear nights.

Meals included: breakfast, lunch, dinner

DAY 4-10

Exploring Northeast Greenland and Scoresbysund

Encompassing roughly 80 percent of the surface of Greenland, the Greenland ice sheet is the second-largest body of ice in the world. Weather and ice dictate the exact route, but plan to explore well north of Scoresbysund in the largest national park in the world: Northeast Greenland National Park.

Scoresbysund is the largest and longest fjord system on earth, with the village of Ittoqqortoormiit at its entrance. At the end of summer, the ice has retreated as far as it ever does, allowing you to explore the fjords, bays and nooks and crannies of this stunning coastline. With luck, you'll see iconic Arctic wildlife: polar bears, seals and whales. You'll also be on constant watch for the northern lights, conditions permitting.

***Based on sailing conditions across the Denmark Strait, your Expedition Team might adjust this day to depart early for Iceland.*

Meals included: breakfast, lunch, dinner

DAY 11

Crossing the Denmark Strait

Sail back across the Denmark Strait once more as you reflect on your experience in the largest national park in the world, exchanging stories with

your fellow travelers or editing photos with the help of your certified photography instructor.

Meals included: breakfast, lunch, dinner

■ DAY 12

Reykjavík, Iceland / Disembark Ship

Disembark in Reykjavík and transfer to the airport for flights home.

Meals included: breakfast

National Geographic Endurance

Guests 138	Cabins 76
----------------------	---------------------

The most advanced ice-class expedition ship afloat, the *National Geographic Endurance* offers unprecedented access to polar regions.

The first new polar build in Lindblad's 50-year history, *National Geographic Endurance* is named to honor explorer Ernest Shackleton and his legendary Transantarctic Expedition.

A fully-stabilized vessel of the highest ice class (PC5 Category A), she will enable adventurous guests to go where few have or can. Endurance's most striking exterior feature is her distinctive profile, the patented X-Bow®, a game-changing design that guarantees the smoothest, most comfortable ride in all kinds of conditions; and since it eliminates bow impact, a quieter ride, as well.

An equally impressive feature may well be her capacity: she carries just 138 guests, a commitment to expedition excellence over scale. Scandinavian-inflected, luxuriously appointed, her inviting interiors would be a destination in themselves. Because she is a Lindblad expedition ship, however, her attention is focused on the world outside—with acres of window glass to keep you connected to the stunning views beyond the pane, and a fleet of expedition tools to get you out exploring.

National Geographic Endurance and *National Geographic Resolution* are next-generation expedition ships. Purpose-built for polar navigation. Fully stabilized, highly strengthened, ice-class Polar Code PC5 (Category A) vessels, they are designed to navigate polar passages year-round, and safely explore uncharted waters, while providing exceptional comfort. The patented X-bow[®] is key to their design; its powerful wave-slicing action provides an extremely smooth ride even in adverse conditions, and even reduces spray on deck for superior observation. They carry a full suite of expedition tools, and offer a variety of experience enhancing amenities.
